RGS Gun Dog Fun Hunt Guidelines

This will be a very low key, but well organized social event. Bring the entire family out and enjoy the day. You will be able to interact with all the various breeds and watch them run with conveniences from an on-site clubhouse. Mingle with fellow dog owners who share a common interest. It doesn't matter what age or level of training your dog has, even if they haven't been exposed to birds before. Bring them out, socialize them, and have some fun!

- This is not a competition. There will be no judging or awards given. This is strictly for fun.
- Flushing and Pointing dogs of all ages and experience are welcome. There will be shooting so take proper precautions with young dogs that haven't been exposed to gunfire.
- We will have use of a rustic clubhouse and there will be a portable restroom on site. We advise people that want to sit outside to bring folding chairs with them.
- All field participants are required to wear blaze orange covering at least 25% of their body while in the field.
- Dogs need to be leashed, kenneled, or staked out when not in the field.
- Safety/shooting glasses must be worn in the field. We advise spectators to wear them as well.
- Facility requires us to use shells with **steel shot** in them (no lead shot allowed). This has to be enforced.
- ***New this year*** - We are offering a pre-order for 12ga. and 20ga. low brass shells at a minimal cost for those that do not want to buy an entire box. You will receive your shells when you check-in at the event. Please make sure your gun/chokes are designed to be used with steel shot.
- We will not tolerate any vulgar language toward other people or abuse to any dogs.
- You will have 30 minutes to run your dog and find your birds. Re-flushes are permitted as long as the bird stays within the boundaries of the same field.
- A minimum of 2 birds per dog must be purchased (no maximum number). We will be using chuckar partridge for this event. Please keep the birds you shoot.
- We will allow 2 people to walk behind a dog. We encourage parents/kids, grandparents/grandkids, and couples to work together with your pup. Sorry but we cannot allow any additional spectators into the field for safety reasons.
- ***New this year*** - Youngsters registered in the DNR mentor program will be allowed to carry a gun under the guided supervision of a parent/guardian. All Michigan DNR mentor guidelines must be followed.
- For safety reasons, we will only allow **one person** to carry a gun in the field.
- Be at the start line ready to go 10 minutes before your hunt is scheduled to start. This will give us time to locate you and go over a few safety reminders while your birds are being planted.
- All electronic devices (e-collars, beepers, GPS collars, etc.) are allowed to be used.
- If you have a female pup, please let us know if the event date may coincide with a heat cycle. We will designate special run times for them.
- Craig Shaw, a professional dog trainer with over 30 years of experience, will be available all day to answer and training and facility questions you may have.
